

What other occasions can swimming pool disinfectant be used in addition to swimming pools?

Detail Introduction :

Swimming pool disinfectant is an agent used to disinfect swimming pool water, but in addition to being used in swimming pools, it can also be used in some other occasions. Let's find out what other occasions are available?

The composition of swimming pool disinfectant is trichloroisocyanuric acid, which can not only be used for the disinfection of swimming pool water and foot soaking pool, but also for the disinfection of some utensils and floors. For example, the facilities, supplies and other surfaces of some swimming places are disinfected.

1. Disinfection of swimming pools and foot soaking pools. These are carried out every day to keep the chlorine in the swimming pool water up to the standard and the foot soaking pool water up to the standard.
2. After the swimming pool is over, after cleaning the outside of the swimming pool, poolside walkway, sanitary facilities, etc., use swimming pool disinfectant and clean water at a ratio of 1:40.
3. In the bathroom and swimming pool, the ratio of 0 to 0 is dissolved evenly and then sprayed or wiped, then washed with clean water. The ratio of the emergency room is 1:200. The living room should also be disinfected. The ratio of disinfectant and water should be diluted by 1:400. It can be sprayed or wiped, finally washed with clean water. In addition to toilets in swimming pools, hospitals or other public toilets can be disinfected by this method.
4. Shower room, which is also the place to be cleaned and disinfected frequently. The ratio of disinfectant and water is 1:200.
5. Locker, since the locker is public, it should be cleaned and disinfected frequently. Mix the disinfectant and water at a ratio of 1:400, then spray or wipe the locker. Then rinse with clean water.
6. The cleaning and disinfection of slippers is the same as above.
7. Many hospitals are also using chlorine-containing swimming pool disinfection tablets to clean corridor and ward floors, etc.
